Imibuzo ingaqondiswa kuMnumzane S.J. Buthelezi kwinombolo 035 874 5100.

  
NG Zulu  
MUNICIPAL MANAGER

Date: 19 February 2019

## **EXECUTIVE SUMMARY FOR THE IDP ADJUSTMENT BUDGET 2018/19 FINANCIAL YEAR**

In order to ensure that the recovery programme is aligned to the municipality's long-term development agenda, adequately funded, implemented on schedule and monitored against targets; the municipality must amend its IDP as the principal strategic instrument in order to reflect the changed operational strategies and priorities. This process – governed by Section 34 (b) of the Municipal Systems Act – empowers the municipality to affect changes to the IDP for immediate implementation, thus ensuring that the municipality's implementation targets and budgets are aligned to the recovery imperative. The main amendments to the IDP are the shifts in the strategic focus and the associated reprioritisation of projects in the sectors most acutely affected by the budget constraints i.e Eskom electrification programme, MIG projects etc.
