8.3 The Core Competencies will make up the other 20% of the Employee's assessment score. In terms of Local Government: Regulations on appointment and conditions of employment of Senior Managers, Reg. 21 of 17 January 2016, the "Core Competencies" are competencies that cut across all levels of work in a municipality and enhance contextualised leadership that guarantees service delivery impact; and "Leading competencies" means competencies that are required to develop clear institutional strategy, initiate, drive and implement programs to achieve long-term sustainable and measurable service delivery performance results. There is no hierarchical connotation to the structure and all competencies are essential to the role of a senior manager to influence high performance. All competencies must therefore, be considered as measurable and critical in assessing the level of a senior manager's performance and as listed as follows:

| COMPETENCY                         |                                                                                                                                                                             | Weighting |
